## SNEHA'S CARE AND LMC JOINED HANDS FOR RABIES FREE LALITPUR 🎉

### Mass Anti-Rabies Vaccination Program

Rabies is a zoonotic disease that can be transmitted between mammals. Rabies is a vaccine-preventable disease. Rabies elimination is feasible through vaccination of dogs and prevention of dog bites. Control of rabies involves two components viz. elimination of human deaths and control of canine rabies to break down the transmission. Education and Action can help us save the world from rabies. With the mission to prevent rabies, we initiated the “Anti-Rabies Vaccination” campaign with a vision to make Rabies Free Lalitpur. The campaign was officially inaugurated by Honorable Chiribabu Maharjan, Mayor of Lalitpur Metropolitan City Office. Till date, we were able to vaccinate the dogs of wards no 1, 5, 8, 9, 10, 12, 15, and 17 of Lalitpur Metropolitan City.

Our vaccination program is supported by Chance for Nepal and Rangjung Yeshe Shenpen.

Paralyzed mom and her six babies

It was a cold rainy day, and her only warm home was her six babies. She was hit by a car, leaving her back paralyzed. Our team rescued her as soon as we received a rescue alert from Chovar, Vanjhyang. Despite all efforts, we were unable to save Mother's life. Fortunately, all of her babies were adopted and are now living happily in their new homes.

Thank you Prishita Pokharel (Guheshwori), Madan Shrestha (Kapan), Lok Bahadur Yonjan (Vanjhyang), Tseten Lama (Mahankal), Rahul Parajuli (Bhimsengola), and Rajiv Shrestha (Khumaltar) for providing a loving home to our cuties.

## Mobile Treatment and Rescue

Sneha's care has been actively working to stop any form of animal cruelty and abuse. Our mobile treatment team is up for the daily treatment of stray animals. We receive around 20 to 30 animal cruelty, abuse cases related to stray dogs and animals by hotline, email, and social media. Depending on the availability of resources, we try to handle the majority of the reported cases. Locals and volunteers also assist us in animal rescue and treatment. Our mobile treatment team attends to injured stray dogs and animals and provides on-the-spot treatment. If the injuries are minor, they are immediately released. Follow-up appointments are also set up to get updates on the injured animals, and serious cases are transferred to the clinic.

This month we were able to do the mobile treatment of 138 dogs and rescued 19 dogs that are currently under medication at our shelter.

Mobile Treatment: Nose Tumor at Bishnumati

Mobile Treatment: Skin Disease at Bhainsepati

Mobile Treatment: Dog Fight Case

Mobile Treatment: Hit and Run case at Kalimati

Mobile Treatment: Hit and Run case at Satungal  
(Pregnant Mother)

## Shelter Updates

Meanwhile, in the shelter

We currently have more than 160 dogs, 21 cows, 2 buffaloes, 4 goats, and 7 piggles at our shelter that have been rescued from various locations over time and during this lockdown. In between treats and snacks, the animals at the shelter have meals at 10 a.m. and 4 p.m. Our shelter team provides daily treatment and grooming as well as follow-up on all cases at the shelter.

### Some Happy Stories

### King released after full recovery

King is one of the hit-and-run victims, with severe injuries to his left front and back paws. Poor King was rescued from Thapagaun, Lalitpur. With daily treatment, love, and care, he is now completely recovered and back to his own home.

### Tow back to home after full recovery

Ms. Anita Shrestha brought tow with a severely injured back right leg. Because his injuries were severe and could not be treated, his leg had to be amputated. Tow's quick recovery astounded us. He has now been released safely and happily.

### Do you Remember Nola and Carol?

Nola and Carol have achieved victory over their traumatic situation. They're both doing amazing on our farm. They are the happiest.

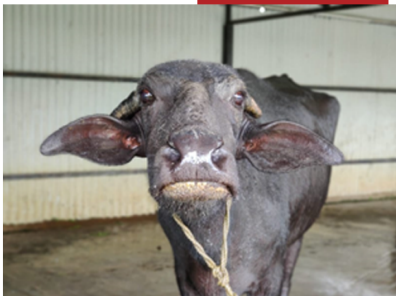

We must all speak up to put an end to animal cruelty, abuse, and neglect.  
Let's be the voice for the voiceless.

Carol( On Left)  
Nola ( On Right)

# Happy International Dog Day 2021

In collaboration with Golyan Group, we celebrated International Dogs Day 2021. We fed more than 300 dogs of the Brikutimandap, KupondoleFohormaila, and TekuFohormaila area. We would like to express our heartfelt gratitude to the entire Golyan Group family for their generous support.

## Animal Birth Control Program /Golyan Group Shelter Visit

Animal Birth Control (ABC) program was organized in coordination with the Golyan group in Lalitpur Metropolitan City-21, Khokana. We have spayed 54 dogs in Lalitpur so far, and we are grateful for the Golyan Group's support. A spayed dog is a happy and healthy dog!
