**"He who feeds a hungry animal, feeds his own soul."  
- Charlie Chaplin**

## **Feeding Street Dogs Amid COVID-19 Lockdown**

With the issue of prohibitory order "निषेधाज्ञा" in most parts of the country again for the second time from 20th August in Nepal, a situation has arisen where the stray dogs in particular enter into other territories searching for food and display aggressive and depressive behaviour. With people being at home, animals are left with no option and are helpless. These innocent animals are becoming emancipated and weaker ones are dying due to hunger. It can create another roadblock for humans if they are not fed. Therefore, with the start of the second lockdown, we have resumed our feeding campaign. We have been feeding more than 1000 dogs of different places of Kathmandu and Lalitpur daily.

HUMANE  
AND  
VEGAN EDUCATION

## **Humane & Vegan Education for a compassionate and caring society.**

We continued our online Humane & Vegan Education programs to various schools in Kathmandu and Lalitpur in coordination with Terrain Nepal Travels. The students ranged from grade 2 - 10. The main objective of the program was to aware the students about animal rights, animal welfare and to promote the cruelty-free society. There was a commitment from all the students to love the animals more than they have done till date and not to harm them in any forms.

With the begun of the second lockdown, the cases of starvations, hit and run, dog fight, poisoning, aggressiveness along with the skin diseases are increasing day by day. On average, we carry out 6-7 field treatments every day. The critically injured animals are brought to the shelter where they are cared for, looked after until the animals recovered and released to the area where they are rescued. We have been carrying out daily treatments and feeding for over 170 dogs, 30 cows, 9 pigs, and 7 goats on a daily basis placed at the shelter after the rescue.

We continue carrying out or spaying and neuter programs. Within these two months, we have sterilized total of 36 community dogs.
