

Sneha's Care Newsletter

– July 2025

*Dear Supporters & well
wishers,*

Every rescued animal at Sneha's Care carries a story of struggle, but also a story of hope—hope that is made real because of you.

This July, as the days grow warmer, so do their hearts, healing slowly with every kind touch and every moment of safety you help provide. Your support gives them more than care—it gives them a chance to believe in love again. From all of us and every grateful life here, thank you for being their hope when they needed it most.

ANTI RABIES VACCINATION CAMPAIGN 2025

In the month of July, our dedicated team continued the Anti-Rabies Vaccination (ARV) campaign across Lalitpur, working tirelessly to create a safer environment for both animals and people. With the generous support of Chance for Nepal and under the guiding framework of the global 'Zero by 30' goal, we remain committed to eliminating rabies through sustained vaccination and awareness efforts.

*Welcoming Nandi to
Our Ghetter Family*

Nandi is a barely month-old calf who was sadly abandoned on the roadside. He was seen roaming here and there in the rain, helplessly searching for his mother.

When we found him, he was covered in fleas and ticks, scared, and completely alone. Our team rushed to the location, rescued him, and provided immediate medical care. Nandi is now safe at our shelter, receiving the love and care he deserves.

ANGEL'S JOURNEY TO HEALING AND HOPE

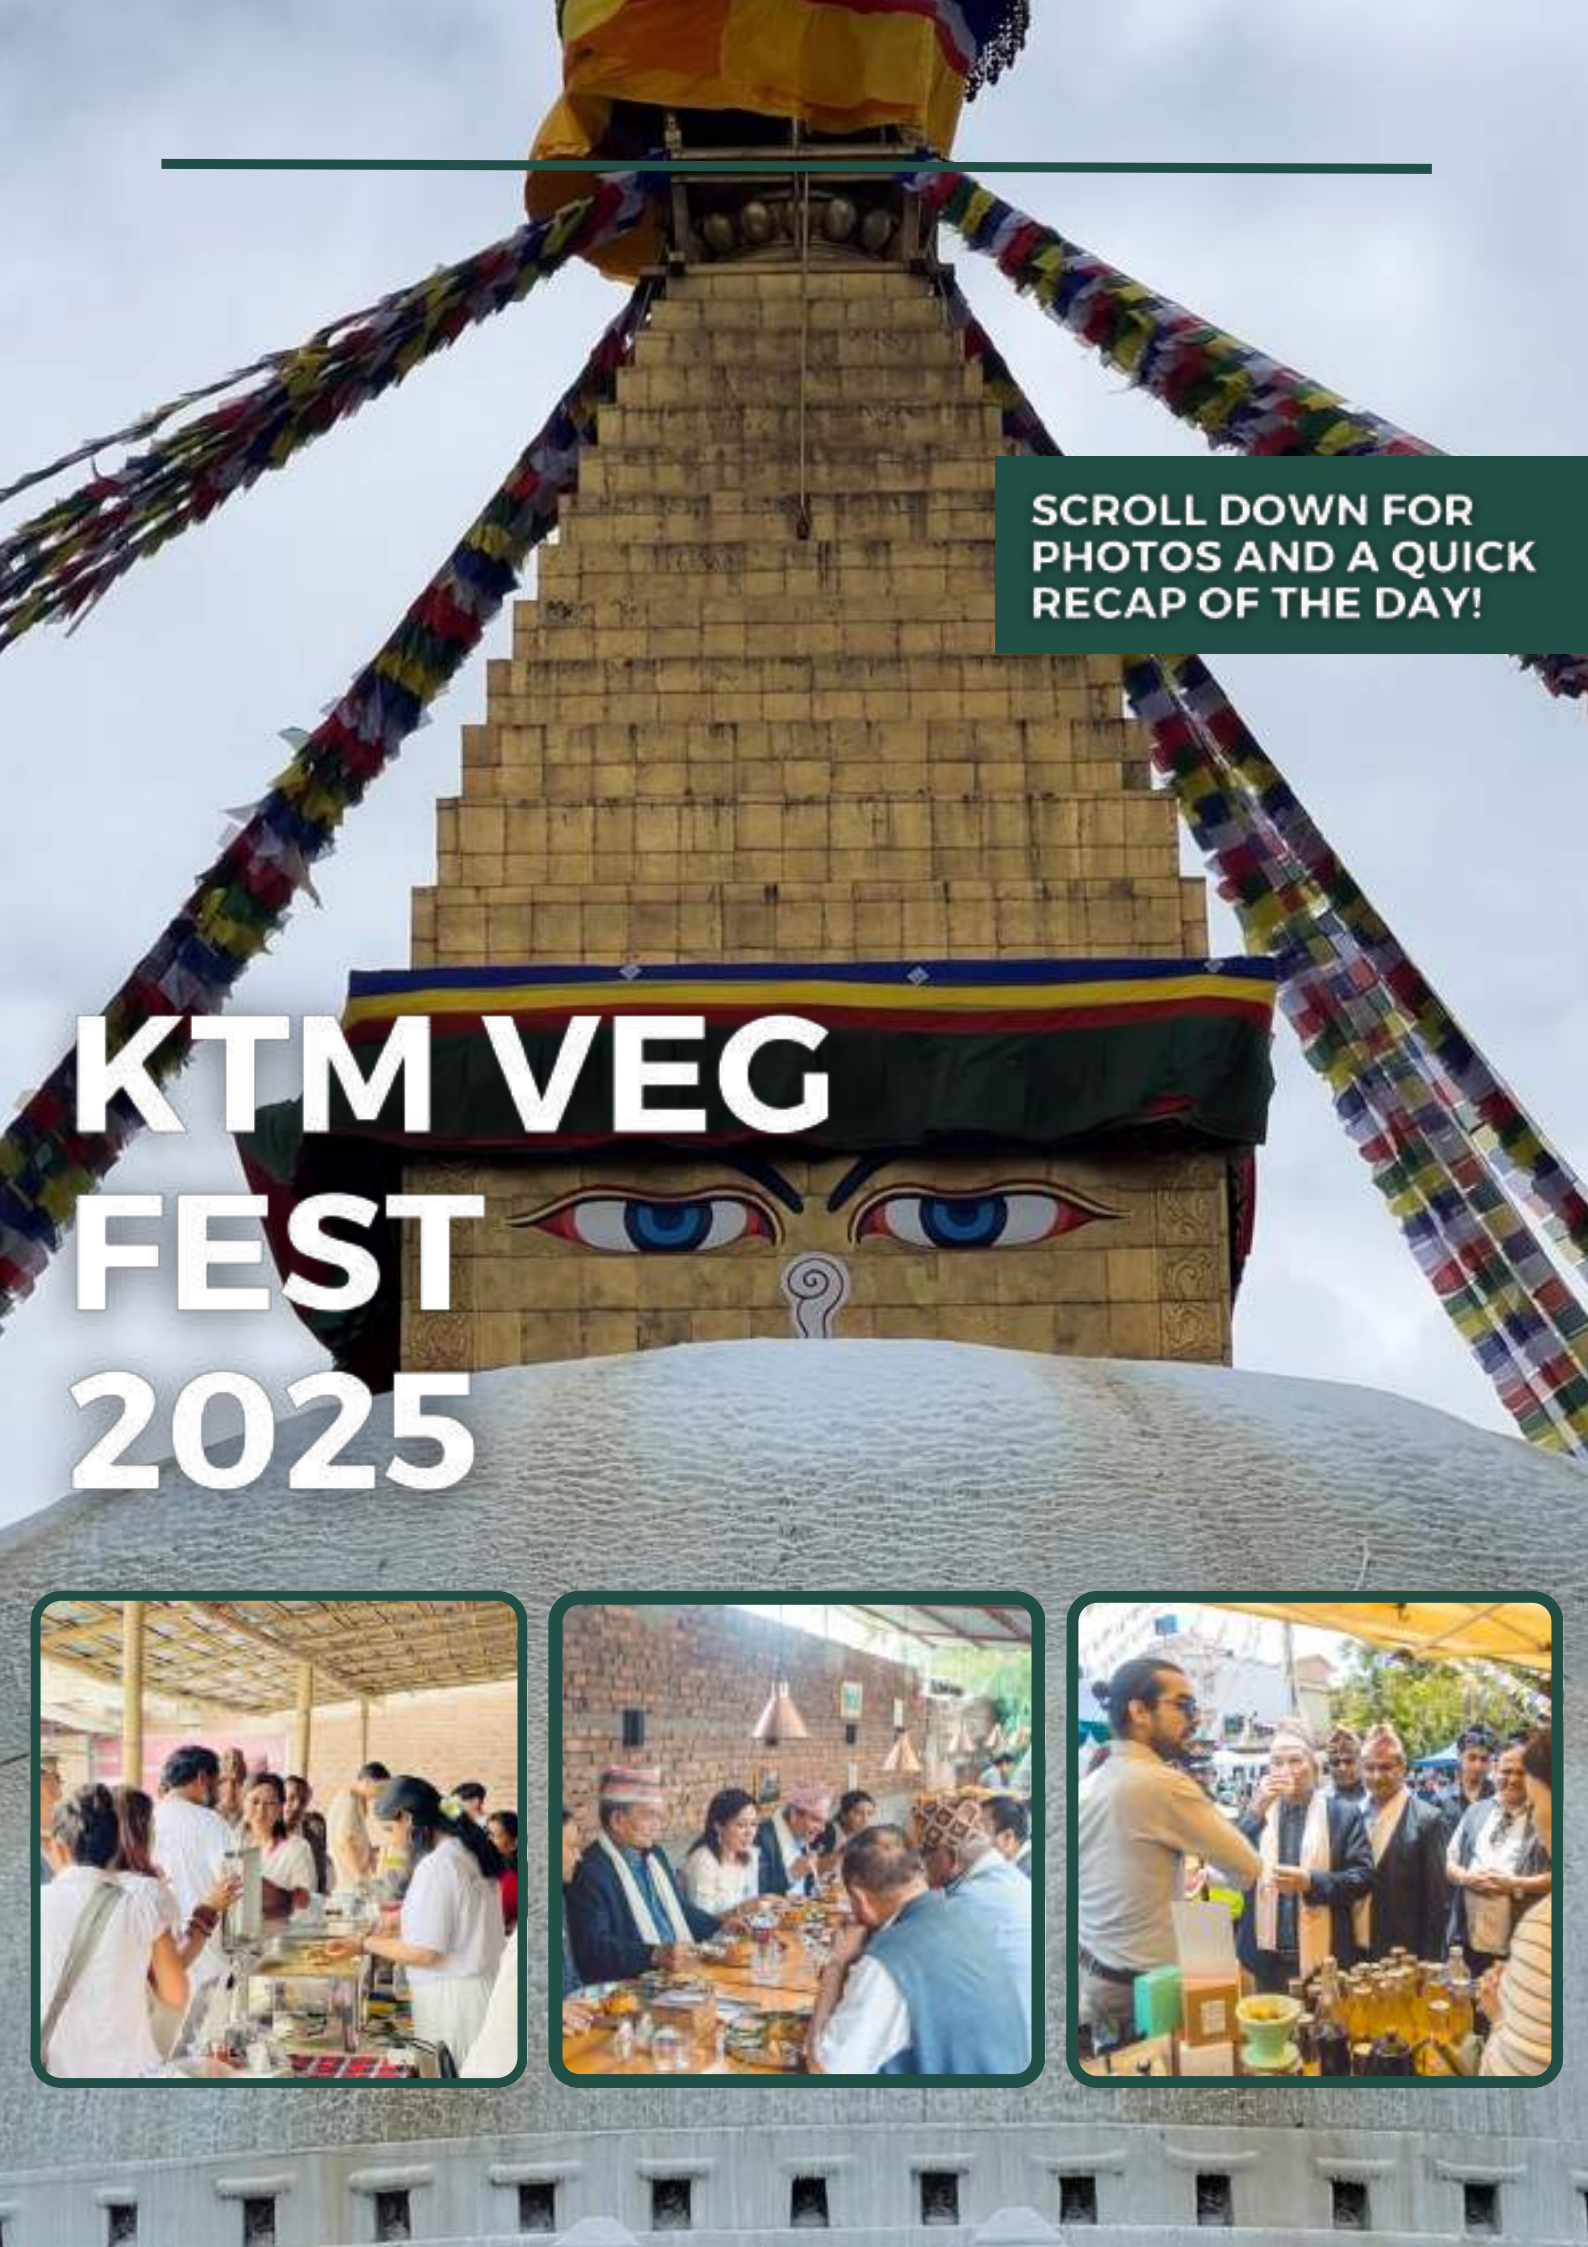

Angel was abandoned and left in danger by her previous owner. She was attacked by other dogs before being brought to our shelter. Angel is one of the saddest souls here. She finds it very hard to trust humans and is struggling to adjust to the shelter environment. We're doing everything we can to comfort her, but she's still scared and distant.

Angel is also suffering from a spinal nerve injury. We've started physical therapy, but her recovery is slow. She seems heartbroken, and it's hard to watch her in pain. Please pray for Angel. If you can help by offering her a foster home or by sponsoring her care it would mean the world to her and to us.

KTM VEG FEST 2025

KTM VEG FEST 2025

*Unity, Food & Love:
What We Felt at KTM Veg Fest
2025*

We are proud to share that Kathmandu Veg Fest 2025 was a grand success and it was all possible because of your incredible support! The aim of this festival was to promote a compassionate, plant-based lifestyle for the welfare of all animals and we're so grateful to everyone who helped bring that vision to life.

Thanks to the incredible support of vegan restaurants, animal welfare groups, organic farmers, vendors, and kind-hearted individuals, the event turned into an unforgettable celebration of compassion. Special thanks to Utpala Café and Mr. Deepak Bohora for the perfect venue to host this event.

We're also truly honored by the presence of our chief guest, Mr. Chiri Babu Maharjan, Esteemed Mayor of Lalitpur Metropolitan City, for inaugurating the event and giving it such importance. Our heartfelt thanks to the Director General of the Department of Livestock Services, the President and Registrar of the Veterinary Council, the President of the Nepal Veterinary Association, and the representative from the Social Welfare Council for their meaningful participation.

A special thank you to former Honorable Deputy Prime Minister and Home Minister Mr. Narayan Kaji Shrestha and senior journalist Mr. Vijay Kumar Pandey for joining us and showing their support. Thanks to our generous sponsors, Help Animals India and Thrive Philanthropy, for their invaluable support in making this event possible.

We named her Amira!

Amira , in search of safety, tried to hide inside the gate of an office hoping to be protected. But instead of receiving help, she was brutally attacked by the very person she trusted to shield her.

We found her in a blood-soaked, critical condition. She was quickly rescued and given medical attention. Legal action against the perpetrator has been initiated, and he is now in police custody. The dog, now safe and under care at our shelter, has been given a new name: Amira — a symbol of hope, strength, and new beginnings.

**We urge everyone: if you see something,
say something. Stand up. Speak out.**

Our Puggu got adopted! ♡

Puggu was abandoned when he started growing older. Just like that, the home he had once known was no longer his. We can never fully understand how much that must have hurt him. But when he arrived at our shelter, he didn't come with anger. He came with quiet eyes and a heart still willing to trust.

We gave him love, warmth, and a space where he could simply be. Slowly, Puggu began to show us who he truly was — gentle, wise, and incredibly affectionate. He made everyone feel like family. His age never once dimmed the light he carried inside.

And then came the most beautiful part of his story.

Ms. Ansu Shah met Puggu and saw beyond his age. She saw a companion. A soul deserving of love. She welcomed him into her life with an open heart, and Puggu finally found what he had been searching for all along — a forever home.

Thank you, Ms. Ansu, for giving him the love he always deserved.

Puggu's story reminds us that every dog, no matter their age, deserves a second chance. And sometimes, the last chapter turns out to be the most beautiful one.

STORIES OF OUR RESCUED FRIENDS

Fighter

Fighter came to our shelter in very bad shape.

He had been hurt in a dog fight and had a large, deep bite wound on his front left leg. He was bleeding a lot and very weak when he arrived. It was clear he had been through something terrible.

Our team quickly gave him the medical care he needed. We stopped the bleeding, cleaned the wound, and gave him medicine to fight infection. For the first few days, we didn't know if he would survive.

But Fighter is strong just like his name.

Little by little, he started to get better. He began to eat, wag his tail, and trust us. He's still healing and needs more care, but he's already come so far.

Champi

Champi was brought to our shelter in a critical condition, showing severe jaundice with yellow discoloration clearly visible in her eyes, mouth, and stomach region. Recognizing the urgency, we admitted her immediately into our care. Within the shelter, we began a course of medication and supportive treatment to stabilize her condition.

Our team closely monitored her progress, provided her with a calm, clean environment and the medical attention she needs as she continues to fight through this serious illness.

Hit and Run Cases

Barfi

Barfi is a gentle and innocent soul who became the unfortunate victim of a tragic hit-and-run accident. When she was found, she was in severe pain, unable to stand, and visibly frightened. Upon immediate rescue, our veterinary team conducted a thorough examination and confirmed that she had suffered a serious fracture to her left femur bone.

Thanks to the swift action of our rescue team, Barfi was brought to safety and is now receiving the urgent medical care she so desperately needs. She has undergone initial treatment and is currently resting in the warmth and comfort of our shelter, where she is being closely monitored and given round-the-clock care.

Bhuntery

Bhuntery is a gentle and resilient female dog who was brought to our shelter after being the victim of a heartbreaking hit-and-run accident. She had suffered a painful fracture in her right hind limb and was in clear distress when she arrived.

Despite the trauma she endured, Bhuntery showed strength and trust from the very beginning. Our team acted quickly to assess her condition, and she is now receiving the urgent medical care she needs to begin her recovery.

Though her injury is serious, Bhuntery is safe now, surrounded by people who truly care. She's resting in a quiet, comforting space at our shelter where she is being closely monitored and gently supported through her healing journey.

Champi, a mother dog, was brought alone to our shelter in a critical condition, suffering from severe jaundice. The yellowing in her eyes, mouth, and stomach area indicated a serious health issue that required immediate attention. We admitted her right away and began medication and supportive treatment within the shelter.

A few days later, her puppies were also brought to us. They were not sick, but it was clear they had been missing their mother and were in need of care and comfort. We reunited them with Champi at the shelter, which brought visible relief to both her and the pups. Champi, despite her illness, showed incredible strength and remained loving and attentive to her babies throughout her recovery.

With regular treatment, rest, and a nurturing environment, Champi gradually healed. Once she fully recovered, we were happy to return her to her own community, healthy and reunited with the surroundings she knew.

Champi Returns Home with Her Little Ones!

RABIES CASE ALERT

We were recently informed by residents of Ward 22, Lalitpur Metropolitan City, about an aggressive dog causing panic in the neighborhood. The dog was displaying unusual and threatening behavior—trying to bite people and other animals without provocation.

Our rescue team immediately responded and arrived at the scene. The dog showed clear signs that raised suspicion of rabies: excessive drooling, unprovoked aggression, erratic behavior, and aversion to water.

Using extreme caution, our team safely rescued the dog and brought it in for medical observation. Unfortunately, the test result came back positive for rabies.

PRESS RELEASE OF KTM VEG FEST 2025

Kathmandu Veg Fest 2025 Press Meet Held at Vegan House

The official press release of Kathmandu Veg Fest 2025 was successfully held at Vegan House, a leading plant-based restaurant and a proud supporter of compassionate living. The event provided a detailed overview of the upcoming festival, its objectives, highlights, and the growing importance of sustainable, cruelty-free lifestyles in Nepal.

The fest is expected to host thousands of attendees, including renowned speakers, chefs, animal rights activists, and eco-conscious brands. The team also extended their heartfelt thanks to the sponsors, Help Animals India and Thrive Philanthropy, for making the event possible.

Kathmandu Veg Fest 2025 will be more than just a food festival, it will be a celebration of kindness, awareness, and action.

A Dream in Progress.
