

# A NEW CHAPTER OF LOVE THIS AUGUST

WITH THE ARRIVAL OF AUGUST, WE WELCOME NOT JUST A NEW MONTH BUT A NEW SEASON OF KINDNESS. JUST AS THE RAINS NURTURE THE EARTH, YOUR SUPPORT NURTURES THE LIVES OF COUNTLESS ANIMALS, HELPING THEM FIND SAFETY, LOVE, AND HEALING.

# PANEL OF JUDGE

## ECHOING THE VOICE OF ANIMAL WELFARE IN THE UNITED STATES

We are proud to share that our founder, Ms. Sneha Shrestha, was invited as a judge at the Miss Nepal North America Pageant 2025. During the event, she had the opportunity to speak about animal welfare, veganism, climate change and share messages of compassion and kindness with a global audience.

Her presence highlighted the importance of caring for animals and inspired both participants and viewers to take action in their own communities.

The event not only celebrated beauty and talent but also served as a stage to advocate for a more humane and compassionate world.

# Malpi International School at Sneha's Care

Thank you for  
being part of  
our mission,  
and for  
reminding us  
that the future  
is in gentle  
hands. Come  
visit us again  
soon, our  
furry friends  
already miss  
you!

# Meet Spotty !

Spotty is an abandoned dog who ended up inside DAV School, too scared to go back to the streets. The children were frightened and called us for help. Our team rescued him and brought him safely to our shelter. Now, Spotty is safe, loved, and waiting for someone to give him a forever home. You can adopt him or sponsor his care and help him live a happy life.

# Say Hello to Barfii !

Barfi is a sweet six-month-old puppy who became the victim of a hit-and-run accident, leaving her with a fractured femur and painful swelling. Rushed to the Animal Medical Center (AMC), she underwent urgent surgery and is now safe at our shelter, where she is healing with gentle care and close observation. Step by step, Barfi is growing stronger, but she still needs love and support to fully recover. Having endured so much pain at such a young age, she truly deserves a chance at a happy life—please consider adopting or sponsoring Barfi to be part of her healing journey.

A  
Sweet  
Soul  
Waiting  
for  
Love !

On the day of Krishna Ashtami, when we celebrate the birth of Lord Krishna, our own little Krishna came to the shelter but not in joy. He was badly hit by a vehicle. His left leg was deeply wounded, with maggots crawling inside and a muscle tear that caused him so much pain.

While the world was celebrating, he was fighting to survive. He's under treatment now, and we are doing everything we can to help him heal. But we need your support. With your help, we can care for him. Your small kindness can mean the world to him.

# Introducing Krishna !

# TINY BABY

Tiny was brought to us by a kind informer from Bhaktapur. She was a victim of a hit-and-run case. A speeding vehicle hit her and fled the scene, leaving her with traumatic wounds and spinal nerve damage. Her healing journey needs medicine, therapy, and care, which all come at a cost. Our veterinary team is doing everything possible monitoring her closely and giving her continuous medical care.

# MOBILE TREATMENT CASES

## HIT AND RUN

This month, we received several heartbreaking cases of dogs severely injured in vehicle accidents. In one case, a dog was hit so badly that an entire limb was missing. Another had large portions of skin torn away. Since they could not be brought to the shelter, our team rushed to the location and provided mobile treatment on-site; cleaning wounds, dressing injuries, and giving pain relief.

## SKIN ISSUES

This month, we also treated many heartbreaking cases of dogs suffering from severe skin infections. Some had lost almost all their fur, with raw patches of skin covered in painful wounds and constant itching. Others were so weak from secondary infections that they could barely stand. Many of these dogs had been living like this on the streets for weeks, often ignored because of their appearance. Our mobile team reached them in their own communities, providing medicines and pain relief.

## WOUND

This month, we received numerous cases of wounded dogs. With the frequent rains, many of the wounds had become soggy, foul-smelling, and infested with maggots, causing immense suffering. Our team visited the locations multiple times a week to clean the injuries, provide timely dressing, and continue treatment until the dogs began to heal.

She was brought to our care with a large mammary tumor and loss of appetite, leaving her in pain, and in urgent need of help. Our team acted swiftly and performed a delicate surgery to remove the tumor. She is now under our close observation, receiving both medical support and the warmth of a safe environment.

Stories like hers remind us how important it is to never turn a blind eye to animals in need. We are truly grateful to Mr. Sagar Rasali for his compassion and for ensuring she wasn't ignored in the pain.

## A Journey to Healing

## OPD Cases

**Whenever we are unable to reach an animal in distress, we request the informer to kindly assist by bringing the animal to our shelter for further treatment. This way, the animal can receive immediate care without unnecessary delays. Together, with the support of compassionate individuals in the community, we are able to save more lives and ensure that no cry for help goes unanswered.**
